

Attention Brick Township & NJ Residents  
**YOUR WATER IS ABOUT TO BE TAXED**

**Brick Township Municipal Utilities Authority Customers are in danger of facing another State of NJ imposed tax**

Assemblymen John McKeon (**D-Essex**) and Reed Gusciora (**D-Mercer**) along with Senator Bob Smith (**D-Middlesex**) are sponsoring legislation in the NJ State Assembly & NJ State Senate to tax your water bills. The bills are A3215, A3874, ACR227, S1454, SCR88.

The Commissioners of the Brick Township Municipal Utilities Authority along with Brick Township Mayor Stephen C. Acropolis and the Brick Township Council **OPPOSE** this and need your help to fight this unfair tax. The Authority Commissioners, Mayor Acropolis and the Town Council have passed and sent resolutions to the above legislators to halt any action that would tax your water usage. These bills are disingenuous as they profess to purchase and preserve open space but in fact the passage of any of these bills will not ensure cleaner water or open space. Read a little deeper and you find that the bills send your money to North Jersey as the purpose of this bill is to preserve farmland and historical sites in the NJ Highlands. Is it fair that you, the rate payer, have to have an additional expense to pay for problems out of our area? This water tax will not benefit our local water & sewer infrastructure yet you are expected to pay once again!

*Join us in contacting the following legislators in saying  
**NO TO A WATER TAX!!!!***
